[illegible]

On 20 November 1978, a letter was received from the Soviet Consulate in London, stating that the Soviet Government had decided to release the two Soviet sailors who had been arrested in the United Kingdom in 1975. The letter stated that the two sailors, who were named as 'Vladimir V. V. V.' and 'Vladimir V. V. V.', were to be released on the condition that they would not be allowed to return to the Soviet Union. The letter also stated that the two sailors were to be released on the condition that they would not be allowed to return to the Soviet Union. The letter was signed by the Soviet Consul in London, and was dated 20 November 1978.

Technical drawing of the front view of the device. It shows a rectangular metal housing with two octagonal input terminals on the left, each secured with a hex nut. A label between the terminals indicates '230V'. To the right, a cylindrical output connector with a flange and a central pin is visible. A line points from the '230V' label to the input terminals.

On 20 November 1978, a letter was received from the Soviet Consulate in London, stating that the Soviet Government had decided to release the two Soviet sailors who had been arrested in the United Kingdom in 1976. The letter stated that the two sailors were to be released on the condition that they would not be allowed to return to the Soviet Union. The letter also stated that the two sailors were to be released on the condition that they would not be allowed to return to the Soviet Union. The letter also stated that the two sailors were to be released on the condition that they would not be allowed to return to the Soviet Union.
