

Aufrichtbarkeitstabellen

Die Aufrichtbarkeitstabellen geben Aufschluss über die Aufrichtbarkeit aller möglichen Ausleger- bzw. Ballastkonfigurationen.

Es ist zu beachten, dass Zusatzausrüstung am Ausleger, Podeste, Eis und Schnee die Länge des selbst aufrichtbaren Auslegers reduzieren.

Der Lasthaken bzw. die Unterflasche muss sich während des Aufrichtens immer am Boden befinden.

Diese Aufrichtbarkeitstabellen sind nur gültig für Original LIEBHERR Maschinen- und Auslegerteile in neuem und einwandfreiem Zustand. Jede Beschädigung, jeder nicht von LIEBHERR genehmigte Umbau oder Zusatz beeinträchtigt die nachfolgenden Aufrichtbarkeiten und verbietet deren Anwendung.

Aufrichtbarkeit A: Der Ausleger ist über das **Leitrad** aufrichtbar.

Aufrichtbarkeit B: Der Ausleger ist über den **Turas** aufrichtbar.

Aufrichtbarkeit C: Der Ausleger ist über die **Seite** aufrichtbar.
